Hey Beaner. How's it going?
Well, this year has went by
and now I have summer fever. I
are the starting of the best years of
lives, and being friends with you has
started it out good. Ever since I've
known you, I've always liked you
and I'm glad Michele introduced us!
This year we've had a lot of ups and
downs concerning our friends, and you
were always there for me to talk
to. We've all shared a lot of secrets
and to this day I'll never tell any
of them. You've introduced me to alot of
people and I thank you. It was great
meeting Jack, Paul, Rick, Dana & the rest.
Speaking of Rick. I wish you two alot
of happiness and I hope nothing comes
between you two. He's really great
and such a sweatie, hang on to him!
You both deserve each other.

Kari- You're one of the greatest women
I've ever met and I can't express
how much you mean to me. But if
ever you have a problem, just
remember I'm always here. And I
mean that!

I wish you the best of luck in
the world. With cheerleading, and pom

that were still good friends (since 2nd grade) long time huh?! and I hope it will be even longer.

I hope we have some classes next year. we had a lot of fun with everyone in Askim's 7th hour, but that was only ½ year long.

Good-luck in the future with everything and everyone → "Rick"!

You two really make a cute couple. I hope you two last a long, long time! Well now that I got my license we will have to do some heavy party at the lake! Will call me and will do some partying!

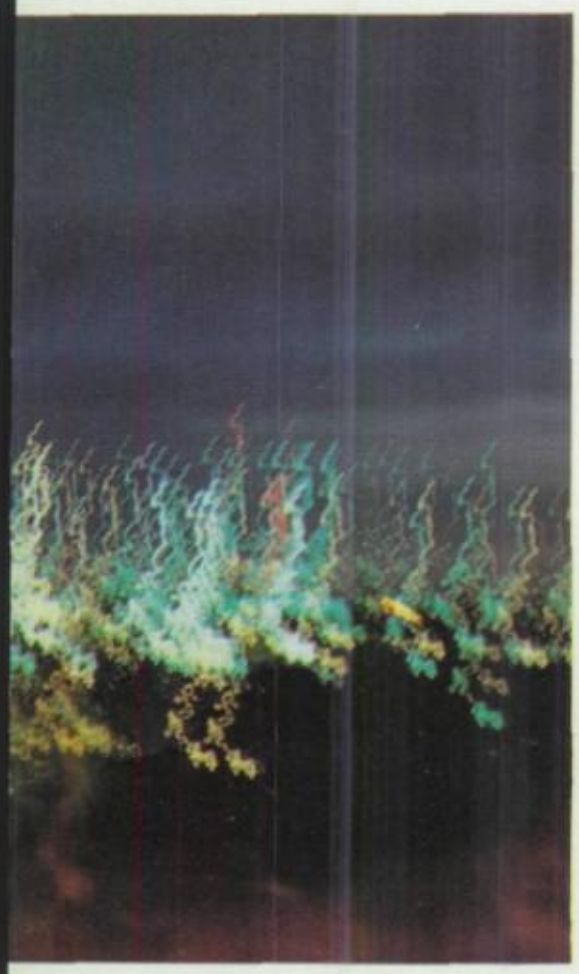
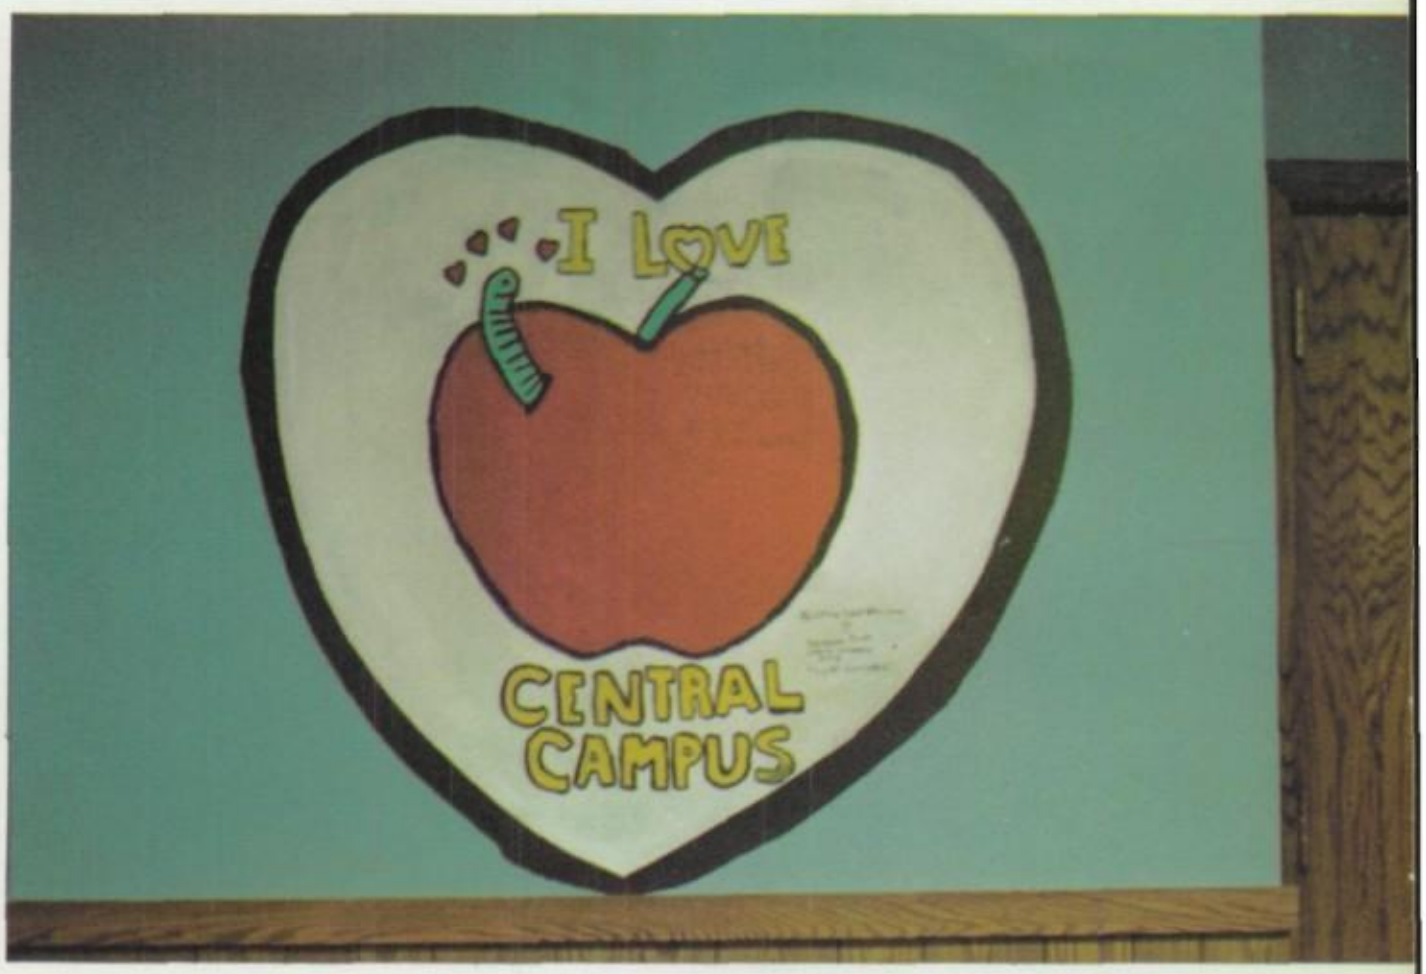
10 Years — Twice the Magic





10 Years — Twice the Magic
People Make the Difference

Ten Years, Twice the Magic! One may wonder why this is the theme for this years yearbook. The answer is simple — Magic City has been in use for ten years now, and twice the magic is because we are now Central Campus and Magic City, united together to do twice as well and be twice as proud. Each of us puts some magic into our school to make it the best. We have magic in our spirit by cheering on our teams at games. We have magic when competing against others and we show it when we win by smiles, and if we lose we prove we have magic by showing good sportsmanship. We have magic in achievements. We set goals and strive to reach them. We are two joined together as one and our pride shows we are proud to be the Magi.

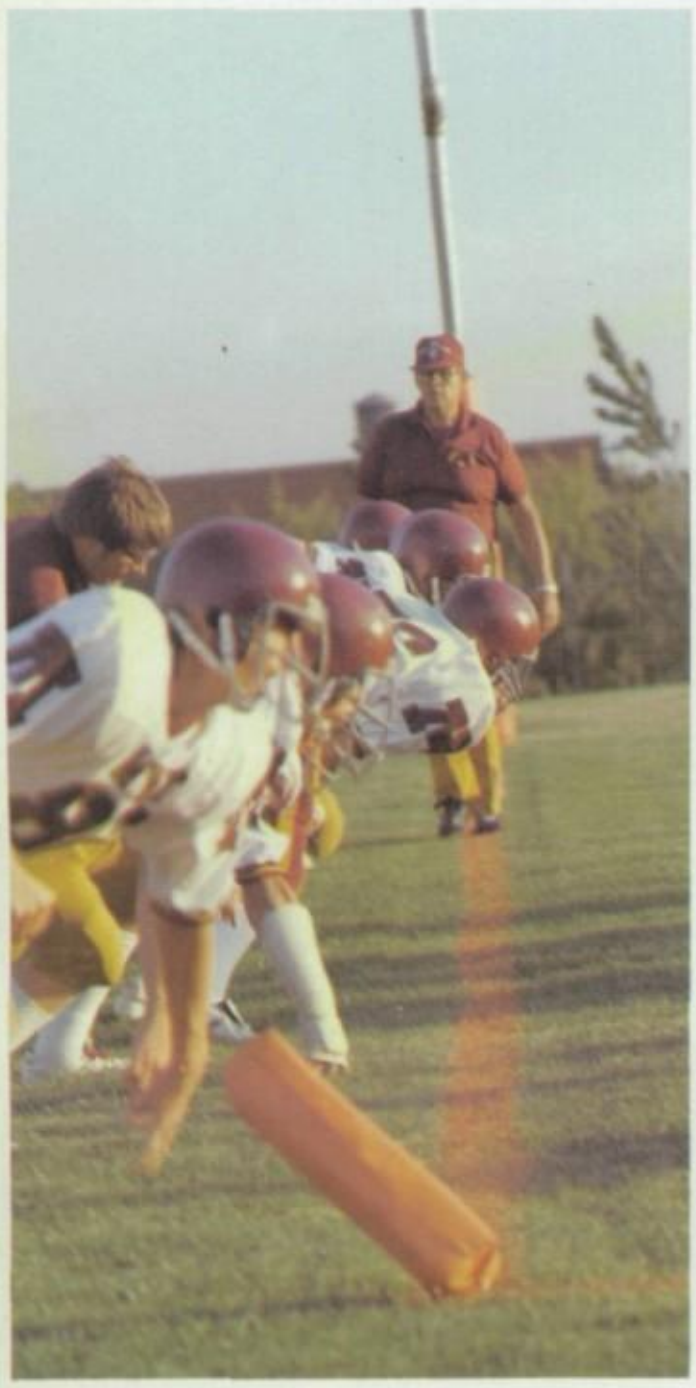
10 Years of Competition Give Both Pain and Triumph



What is competition? It is struggling, maintaining a rivalry. It is a contest for some prize, honor or advantage. It is the magic in Minot High School

All students go through the pain or triumph of competition at some time in their lives whether it be winning a race or winning a friend. Whatever happens in competition can determine how we look at life, the people around us, and ourselves.

Competition teaches us how to discipline ourselves, how to change to better, and especially how to rise up from a failure and succeed the next time.

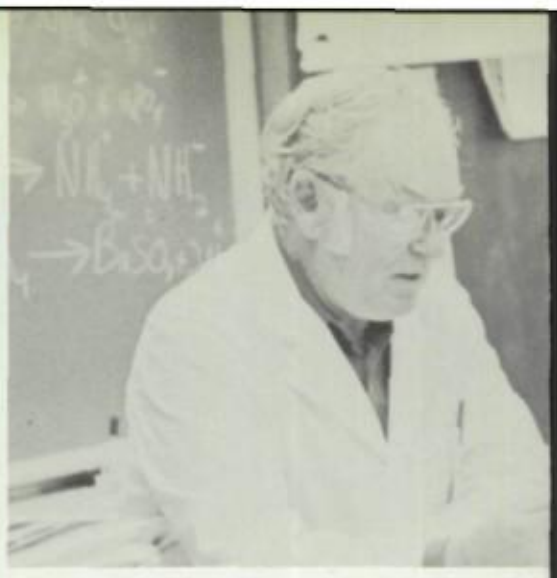
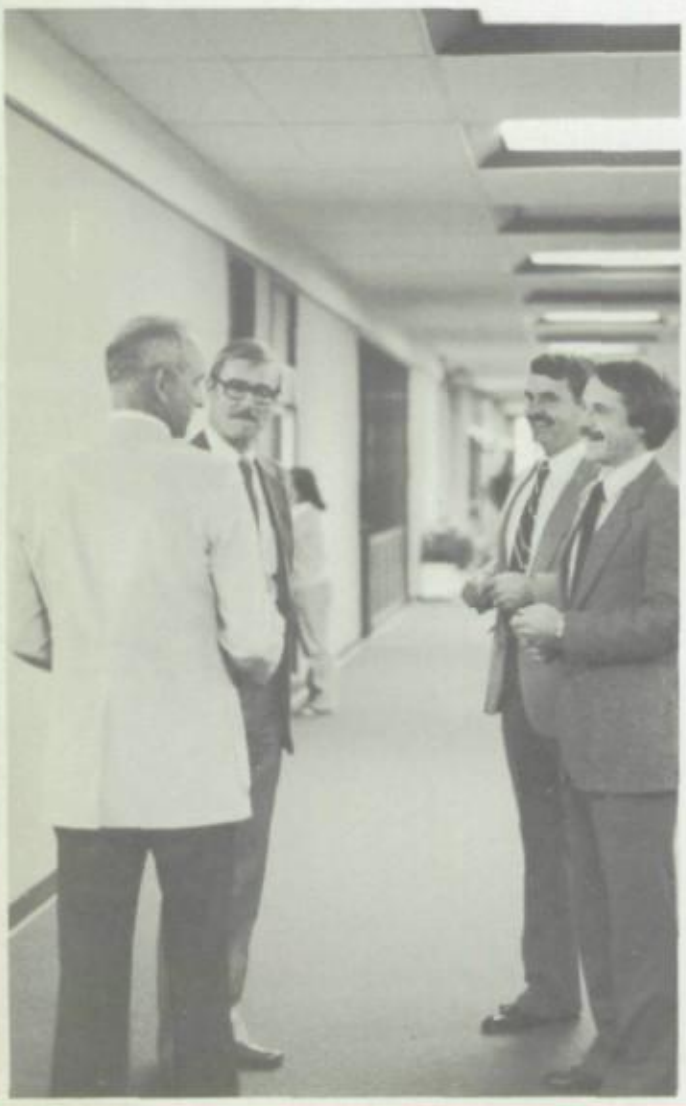
Students Reach for Goals Through Academic Achievement





Ten years ago Minot high Schools doors were opened to two campuses forming one ideal high school. This was a big step for Minot High causing many changes. We now have resource centers, a commons area, open classrooms, open campus and many more classes to choose from.

Because of these opportunities, students have a better chance to excel and reach for the goals they have set for their futures. I believe that the experience of learning at Minot High is not only learning from reading, writing and arithmetic, but also learning from others. You develop from other people's habits, likes and dislikes. And together we grow and learn through our high school years, Walking that special someone to class, cramming for a test or getting your third tardy are all a part of the magic of learning about yourself, others and the school.

Friendship Will Be the Heart of Our Memories

Friends are an important part of l of us. Without them we often el alone and empty. When we're own and the world feels as if it's osing in on us, a smile and a few nd words from a friend can make all seem brighter. That's the agic of friendship.

Having a friend around can make all the difference. Just knowing that someone is there backing us all the way can boost our courage and help us to get out and reach for that dream. That's what friendship is all about.

Years from now when we look back upon our high school years, we will remember certain places and events. But most of all, we will recall the people who made these instances so memorable. The friends who were there through the good times and the bad will never be forgotten. They will always be there, if not in person then in spirit, to help us through our tomorrows. That's the magic of friendship.

Enthusiasm Is the Basis For an Awesome Spirit

Where is the Magic of spirit
can be seen at our pep rallies and
hen our teams compete against
her schools. It's there when you
e a person smile and enjoy school
e. It's in the heart of all students
Minot High School and it is what
anges everything even though it's not something you can see or make happen.

As Mr. Richard Olthoff says, "Nothing great was ever achieved without enthusiasm!" If it wasn't for the enthusiastic spirit of the students for the past ten years, Magic City Campus and Central Campus would not be what they are today — schools strong alone and awesome together.

It's true that there is something magical about all the spirit we have.

The Magic of Living Is Found in the Simple Life

The magic of living is in the sim·le life. Everybody likes outward hings like having a good time, pending money, fast cars, dates, nd popularity, but that is not what fe is really all about.

All these things leave behind an emptiness. The real happiness and joy of living come from love of God and enjoyment of the little things that He created and gives to us every day. It is the simple things that make our lives seem full — the smile from a friend, an encouraging word when you're ready to quit, a flower blooming, being by yourself, playing with a puppy or singing in the shower. We really don't need anything else to stay content — just the magic of living.

Overall Representatives Define Friendship

One of the qualities I look for in a friend is loyalty. A friend is one who will stick up for you when the times are rough. Trust is another important quality. A friend is one you can tell something to and not expect everyone else to find out about it. Openness is another thing to look for in a friend. One who is honest with you.

Pete Stenberg

I feel the most important qualities in a friend are honesty and loyality. A person has to be honest with themselves before they can be honest with others. Being there for your friends when they need you the most is really important.

Julie Woods

A friend to me is someone I can turn to in time of need, but also someone who I can share happiness with. The most important factor of a friend is to be yourself. A true friend will be a lifelong friend.

Traci Effertz

A good friend would be loyal, kind and have a good personality; one to match your own. I feel a good friend should be willing to make small sacrifices for his friend if it does not cause a loss to him. I think friends are the greatest thing in the world.

Mark Mosser

Academic Representatives Work for High GPA

Selection was based on GPA as of Jan. 1, 1983.

A good attitude towards learning and a willingness to accept responsibility has given me the ability to do well in school. And this, as well as help from teachers and other people along the way, has given me academic success in my four years at Minot High.

Mike Sheldon

I think academic success is probably due more to hard work than to innate ability. Although ability certainly does help and can even make up for a lack of hard work for some people, success usually is not gained without at least a fair amount of work.

Joyce Berkey

I feel everyone is born with the ability to be smart. The way they are motivated by their family and friends determines their intellectuality. My father and mother gave me the incentive to get good grades. I feel that hard work is a major part, too. I think that because of my family's help and my hard work I was able to become a representative and now it all seems worth it.

Mike Hulet

I think enthusiasm plays a big part in getting good grades. If a person wants to learn and puts in a little hard work, he should succeed. I've been lucky enough to have had a lot of good teachers that have made their classes fun as well as educational and parents who have shown me how important a good education is

Karen Carlson

Athletic Representatives Praise Coaches

I think Minot High School has the best athletic program in North Dakota. It offers a variety of sports for students to participate in and provides us with the best coaching staff to build strong teams.

I am proud to have competed for MHS; it has taught me that discipline and hard work are the only way to accomplish whatever goals I might have.

Holly Flickinger

The system of athletics at Magic City Campus can offer any athlete the opportunity to excel, to achieve any certain goal he sets so long as that athlete is determined.

Joe Vicha

I feel Minot High School definitely has one of the top athletic programs in the state. Not only does it consist of excellent equipment and facilities but also consists of top quality coaches, a good positive attitude and a great winning tradition.

Andy Patzner

I feel the athletic system at Minot High is definitely one of the best in the state. We not only have great facilities and an abundant amount of participants with the desire and ability to succeed, but we also have some of the greatest coaches, and without them athletics just wouldn't exist. I would like to thank all my coaches for they were the ones who made me work and gave me the desire to succeed.

Dana Fiedler

Students Define Leadership Qualities

Leadership is a quality which grows and becomes more refined through time and experience. The characteristics that make up a good leader are not born within him but rather, develop through the years. In order to lead well, one must learn self-discipline, organization, responsibility, and above all, have a desire to work for whatever he wishes to attain or accomplish.

Julie Chu

Courage is an important part of leadership. It is a brave person who will state his position. A good leader goes in the best direction regardless of the direction of the grain. He does this knowing it may draw criticism. The honor of leadership is not in prestige or recognition, but in leading well and doing a good job.

Matt Coolidge

I feel leadership is a special quality that everyone has within himself. A person just has to utilize that quality. To excel at becoming a leader, one must be strong willed and very determined, but one of the most important things to take into consideration is what others believe in. A leader is one who understands the feelings of others and weighs the value of them in the final decision.

Eric Svare

I feel leadership is a quality everybody can have if they have enough love for what they are doing. The qualities of a leader are developed through the years by supportive teachers, family, and other students. Self-discipline, enthusiasm, sensitivity, and ability to delegate responsibility make being a leader something anyone can achieve.

Becky Brooks

Fine Arts Representatives Reach for Goals

I feel self-discipline, natural ability, dedication and the superb rewards a person receives from theatre are what have kept me involved in the drama program here at Magic City. A person can't rely solely on ability but also must have good instructors and a strong desire to work for his goals. Only then would a person have the satisfaction of knowing he has done his best.

Daren Goodman

I feel excelling in the Fine Arts is an expression of yourself, whether it is in a piece of work, a song or a theatre production. I feel that I put all of myself into my work, so I get that much more out of it. Concentration and determination really does pay off.

Kristy Dippong

I feel whether it be music or theatre or any other art form you must have a certain amount of love and self-discipline for what you are doing. Inspiration and education are very important, and I feel the MCC Fine Arts staff has touched me and I have grown and learned something from each one throughout my high school years.

Kila Krebsbach

Success in debate and speech is primarily the result of hard work and confidence in one's ability. That confidence is fostered by the encouragement of teachers generally, and my advisors in forensics specifically. I think that the support of my parents is the most important factor contributing to my success.

John Kelly

Vocational Representatives Praise Classes

Through vocational classes I have been able to explore several career possibilities. I feel I will always be able to use the knowledge I gained through these classes whether at college or otherwise. Also vocational classes have helped me gain more confidence in myself.

Paulette Larson

I feel that Occupational Health has helped me to decide about a career in health. As State secretary and the treasurer in my vocational class of VICA attended the national convention in Columbus, Nebraska which gave me the opportunity to discover what VICA is all about. It was an experience that I will never forget, and an honor that I am glad to have received.

Willette Moe

I feel vocational classes give exposure to what their occupations are really like. Vocational classes also give students confidence in their work.

Dave Boe

I feel the Vocational Education classes I have taken at Minot High School have given me an excellent background in preparing for the future. The classes have given me a lot of experience I could not get in my regular class.

Leon Scherr

Junior Representatives Admire Strength

The person I most admire is Bobby Clarke, who plays hockey for Philadelphia Flyers. He came out of the Western, Hockey League. He has been an underdog all his life until they won the Stanley Cup '76-'77. He has played with diabetes all his life. The best thing about him is that he is easygoing with teammates and other players. Right now he is an assistant coach and playing at the same time.

Jamie Rose

I admire all of those people who never give up. The ones that have enough courage to go after what they want and won't quit just because they have a few hard times. The people that keep a good attitude and don't let others discourage them along the way. These kinds of people help others to see that you must keep trying to reach your goals.

Lynda Melius

I really admire good teachers who can make a class interesting and fun. They should be able to hold the attention of their class without boring the students. The students should have a feeling of having learned something. Good teachers should be fair with their grading system. Teachers should be your friends.

Renae Newman

The people I most admire are those people that are well controlled. They are the ones who try to keep the anger under control at all times. These are also the people that can handle pressure of a hard paced job. The people like this are always trying to help people through the little problems of the day. These are the people I most admire.

Mark McKechie

Sophomore Representatives Tell How to Succeed

Paul Berg feels that "succeeding in life is like a wheel; you never know how far it will go unless you push it."

Kim Chrest says this: "I think the ability to get along with everyone, being considerate of others, and having a positive attitude are important to achieve goals you have set."

Shawn Nelson adds this: "I feel that having a positive attitude in everything you do and also setting goals for yourself will help you achieve anything that you ever try to accomplish."

Carrie Haberlack concludes with these words: "Being a leader means getting involved in your school, taking pride in what you do, and setting high goals so you have something to reach for."

Freshmen Representatives Are Honored

Mike Schepp explains why he likes to be involved: "Participating in many school activities helps you get to know more people and makes you feel more a part of the school." He adds: "Setting goals, hard work, and commitment are necessary to get what you want in life."

Sue Wahlund says "being a leader of Central Campus is a great honor." She goes on to say that this means "getting involved in activities and reaching goals you have set."

Tara Mathis echoes Sue when she says, "I think it is a real honor to be chosen 9th-grade representative." "I just like being involved" is her response to a question about why she is so involved.

Scott Collins offers these final words: "I think being a representative means that you should try to be a leader and get involved in school activities. You should be responsible and just be friendly to people."

Marco Brings Sunshine to MCC

Coming from sunny Santa Cruz, Bolivia, Marco Alba-Lopez came to MCC as the 1982-83 exchange student.

Marco enjoys sports and has participated on Minot's tennis and track teams. He also is a member of Spanish Club.

"I have really enjoyed my stay here. Talking to and meeting many different people, and learning the likes and differences between our cultures. It's an experience I will never forget," says Marco.

Majettes Take WDA for Third Year; Tame Lions for Fifth to State

The Majettes closed the 1982 season with the best season record of MHS.

Going in to the State Tournament they had a 20 and 1 win-loss record.

At regionals they defeated Bismarck High, St. Marys and Dickinson, the one team they had lost to.

Their only disappointing loss at State came from a strong Wahpeton squad.

Dana Fiedler was selected first team WDA and All State. Laurie Strube and Julie Weigel were 2nd team WDA.

The Majettes are coached by Bruce Anderson.

Laurie Strube gives the high five.

This year's Magician cross-country team had a fairly successful year. They consistently placed high all year long. The team was very severely hurt due to an injury of leading runner Robi Atwood, an officials call, and injuries hampering other team members at the state meet. This lead to a very disappointing sixth place finish at the state meet. Mark Stockert was named team Captain. Robi Atwood was named Most Valuable runner. John Naranja was named most improved and also received honorable mention to the All-State Team.

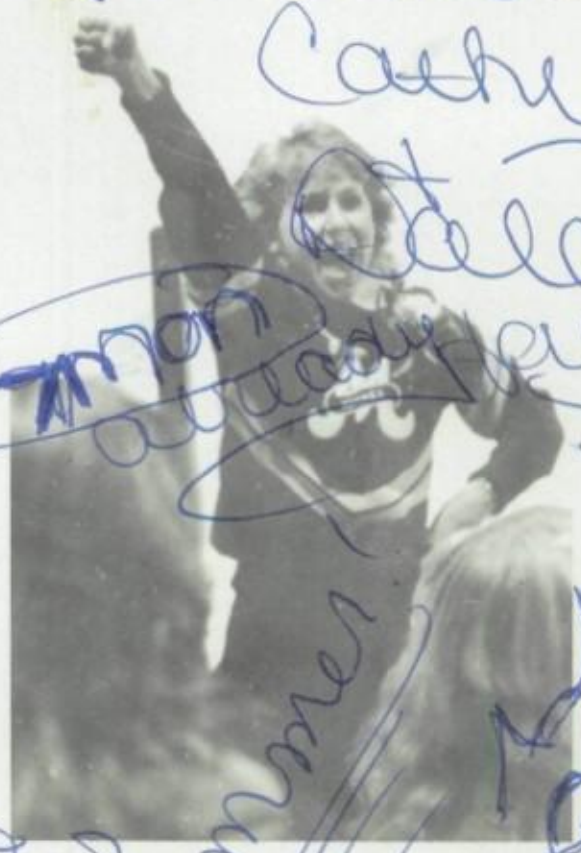
Kari,

Guess I never guessed that we would ever be better friends this year! We've really had some bad times and some good ones since we've known eachother. The good ones are the best to remember. I sure am glad you have a man to love. He's a real sweaty and cute sure he's a real special one too! I hope you ~~two~~ two stay together along time. But dont have anymore _____ fights! Hee Hee! I really love you Kari. I know that must sound alittle crazy but I've always have. I hope we can become closer friends during the next 2 summers! I say were going to have to get together and party till we can't tell which way is ↑ or ↓! I'll call you this summer you can count on it.

'73 — Magi Pride — '83



P.S. Have a great summer and I hope you won't forget me. We've had our ups and downs but I've always had a great time with you. Love always Cathy

This year the Magicianettes have performed on an average of once a month. They also are planning some fund raisers that are looking sucessful: car wash, bake sales, and Halloween insurance.

The Magicianettes will also change the normal routine of tryouts. Instead of being held at the fall of the year, they will be held at the end of each year. This allows for summer workouts if necessary.

They will also hold their letterman's banquet because they are not allowed to participate in the sports letter banquet.

It's obvious that these girls are having a great time performing.

Kari,

I'm glad that we have managed to stay friends for the past 4 years. Although we never really got close at least we never got in any fights. You are such a nice person, your smile has cheered me up on the days when I was down. I am glad I have you for a friend. Will have to get together this summer and paint the town RED! (that was bad!)

Rick

Beaner

LOVE ya,
Mandy Lemke

Good Luck In the future Kari! You are one person who deserves it.

(P.S.) I think the last thing we did together was go bicycling. We'll have to change that

your dog?

(P.S.S.) I want you to know: I hope we can stay friends + maybe even become closer friends. I cherish our friendship!

Love ya, (again) Mandy

maybe that means twice as much

I hope you remember → Is that your dog?
the joke that goes with that!
Otherwise, you might take it the wrong way + we can't have that happen
Can we.
No, we certainly can not!

This year's Future Homemakers of America chapter has been involved in many fund raising projects, such as Pastaville, USA, the Ethnic Food Fest, and the Communiversity. They also helped with the Labor Day Telethon for MD. A state project was "The Student Body" so members planned activities focusing on having a healthy body. Some of these projects included a physical fitness night, preparing nutritious snacks to sell, and have a Sub and Suds Party. In April the chapter attended the State Convention in Bismack and hopes to send delegates to the National Convention in Washington D.C. this summer.

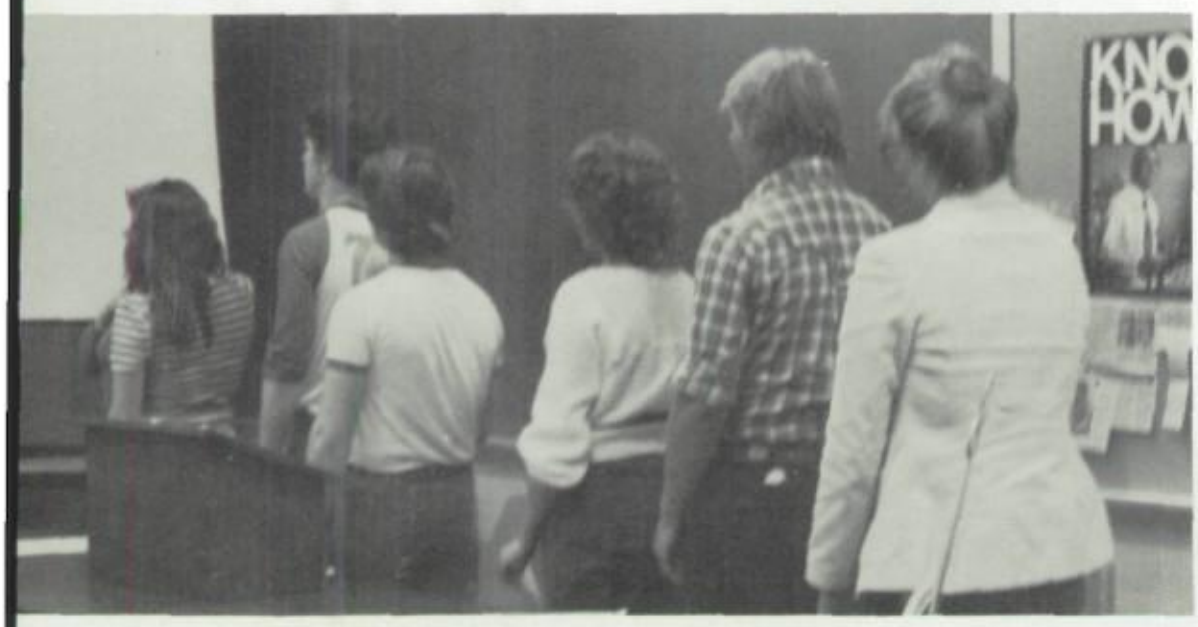
ICA Strives for Leadership in Work



The Vica officers lead the club in the pledge.

Preparing for leadership in the world of work, is the VICA motto. Vica is for all students enrolled in trade and industrial education. One purpose of VICA is to develop vocational, civic, recreational and social activities. It assists students in establishing realistic vocational goals. Another purpose is to create among students, faculty members, patrons in business and labor a sincere interest in and esteem for the trade, industrial and technical education. VICA helps to develop patriotism through a knowledge of our Nation's heritage and the practice of Democracy.

Curtailing Arms Sales Is Topic of Concern for '82-3 Debators

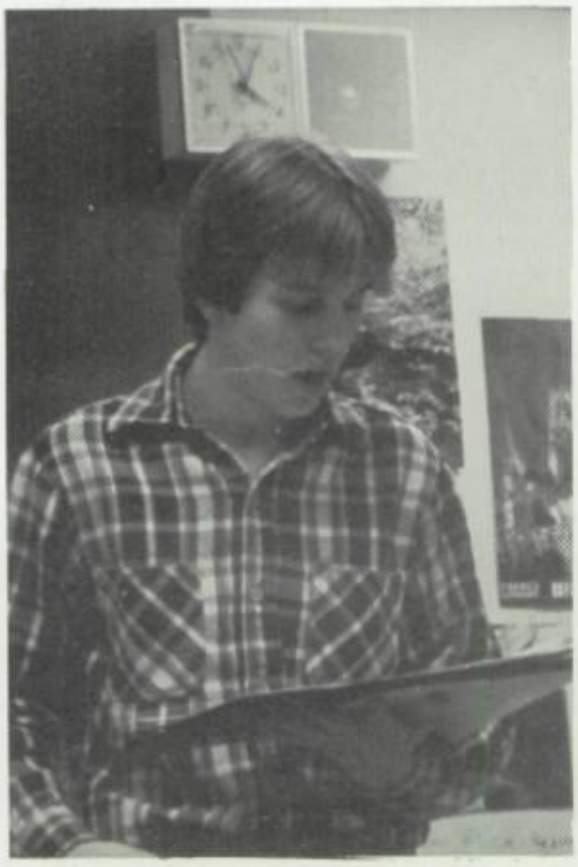
"Resolved: That the United States should significantly curtail its arms sales to other countries" is the debate topic for all teams this year.

Minot High School hosted a tournament on Jan. 14 and 15, but participants from our school were limited to those in the novice division. Others assisted in a variety of other capacities.

The varsity, junior varsity and novice teams traveled within North Dakota as well as into neighboring states to find challenging competition.

Coaches for this year's teams were Mr. Al Alvstad and Mrs. Janice Krefting, who stated that this team is a "very formidable team in the three state area."

Varsity debators are row 1: Kim Hegland, Tim Sanstead, Denise McCann. Row 2: Troy Sorrell John Kelly, Tom Wentz, Joel Iverson and Steve Pierson.



John Kelly races the clock to make his point.

Joel Iverson presents his plan of limiti arms sales.

The Minot Public School Gifted and Talented Program serves elementary students showing potential in the academic and intellectual areas of giftedness. The enrichment program provides a one day a week pullout for approximately 125 elementary students in grades 2-6. During the past year, the children were able to use many resources for their projects and activities in such areas as the library, media center, math and science departments as well as the staff of Magic City Campus.

HIE Identifies Teachers for Tomorrow

HIE or Helpers in Education is a special class designed for early identification of students interested in the education field. The class involves students that have the above average attendance, high grade point average and a disire to learn the skills possessed by an elementary teacher. The education is centered around the elementary schools and the decision of which grade that the student wishes to teach is made by the advisor and that student.

German Club had an exciting year which began with their winning of the championship game in the Homecoming Foreign Language Soccer Tournament. In November they attended the State German Club Convention in Bismarck where they enjoyed still more victories. Joyce Berkey and Sue Eisenrich won prizes in the spelling contest while Craig Fabricius won in the Scrabble contest. In March the members ventured to Winnipeg where they visited the German section of town and had a chance to sample German cuisine. The students also had an opportunity to atten one of the city's numerous cultural events.

Excellence is the main goal of each Playmaker. It takes many different elements working together to create a great product. Hard work, dedication, and cooperation are just three of the traits which a person should posess to create theatre, which is much more professional than a play. This year the Playmakers created three theatrical productions. "Little Me" which was the fall musical, was well received by the audience. The Winter show, which was "Heidi," was also loved by all.

Kristy Dippong brings life to the poor invalids of the army hospital in "Little Me."

Superintendent Commends Searchlight Staff

Central office staff in row one are Leo Mahoney, Edward Mundy, Lowell Latimer, Patrick Schmitt, and Dudley Whitson. School Board members in row two are Mike Hummel, Mike Kelly, Zoanne Flickinger, Dennis Lilleberg, and Dean Nelson.

Dear Students and Faculty:

As another school year is ending, it is my pleasure to express my best wishes and sincere appreciation to the students and staff of Minot High School for a very successful year. A special thank you should be said to Searchlight Staff for an outstanding achievement in providing a storehouse of treasured memories contained in this publication.

The activities and accomplishments of the student body in the areas of academics, fine arts, athletics and community services have once again shown the quality of students which attend Minot High School.

Congratulations to the Class of '83 for your contribution in extending the tradition of high performance and achievement during your tenure as students at Minot High School.

Sincerely,

Edward Mundy

Tom McDonald
Head Principal

It has been ten years since Minot High School was divided into its present organization of Grades 9 and 10 at Central Campus and Grades 11 and 12 at Magic City Campus.

Over these years, many physical plant and program improvements have occurred at Central Campus. The recent completion of our new gym/cafeteria facility culminates an almost complete renovation of Special Services, renovation of the Art area, and, perhaps most importantly, a new elevator and ramping that make our building accessible to the handicapped for the first time.

Central Campus High School has without question proven itself as a positive part of the overall high school program in Minot and as a very effective separate entity.

Magic City Campus Is #1

As I sit at my desk on October 15 composing this message for the SEARCHLIGHT, I do so with feelings of joy and pride. We have started our 10th year in existence (MCC was opened in 1973) in fine fashion as staff and students continue to perform at high levels both academically and attitudinally.

Homecoming 1982 at Minot High School will go down in history as a significant event; one in which student and staff involvement was literally at an all-time high. We have much to be proud of at Mino High School. Let's continue tha trend.

Congratulations to everyon associated with Magic City Campu and thanks for making this school quality and progressive one.

The Searchlight Honors

Naedine Aanestad

Although her 22 years were interrupted to rear her three daughters, Naedine Aanestad has devoted her professional life to the Language Arts classrooms at Minot High.

A graduate of Minot State College, Mrs. Aanestad had done graduate work at UNNDSU, the University of Minnesota, Wittenburg University in Ohio along with extensive travel in Europe, the U.S. and Canada.

She feels her greatest contributions to this school is being instrumental in setting up the humanities course and implementing it.

She has observed students and feels they have remained fun-loving, happy, full of life, and serious over the past years, but notes that TV, jobs and sports involvement have taken time that had been spent reading and writing.

Mrs. Aanestad is not ready to retire yet, however, if she were to choose a career in this age she would look into writing or computers.

Mr. John Anderson has spent 31 years teaching, two years at Sherwood, three years at Bottineau, and the last 26 years here at N.H.S. He has taught math and science from junior high level to college courses. The colleges Mr. Anderson attended to earn graduate and undergraduate degrees include Minot State, UND at Grand Forks, University of Minnesota, University of Chicago, University of Illinois, University of Oregon and Texas A&M.

The most rewarding thing about teaching is working with kids. Mr. Anderson finds that the major change in students over the years has been that there are few better students, and they are not working like they used to. He also finds the courses and teachers are now better. Getting the S. P. LURA award for excellence in teaching from Minot State College has been the highlight of his career.

John Anderson

Janet Neuenschwander

A friendly smile and words of e
couragement have been
trademark of Jane
Neuenschwander for the past fou
teen years at Minot High School.

She graduated from NDSU wi
a B.S. in education. Befor
teaching at Minot High School, sh
had the experience of teaching
Fessenden, N.D.

"Fun" is the word that mo
describes her feelings abou
teaching. She looks forward
every Monday morning when sh
can be with her kids again.

She feels that techonolog
changes and students lives chang
because of it. The school reall
reflects this. We use television an
computers in classrooms and sh
hopes they continue.

If she had another chance to pic
a career she would pick teaching a
over again.

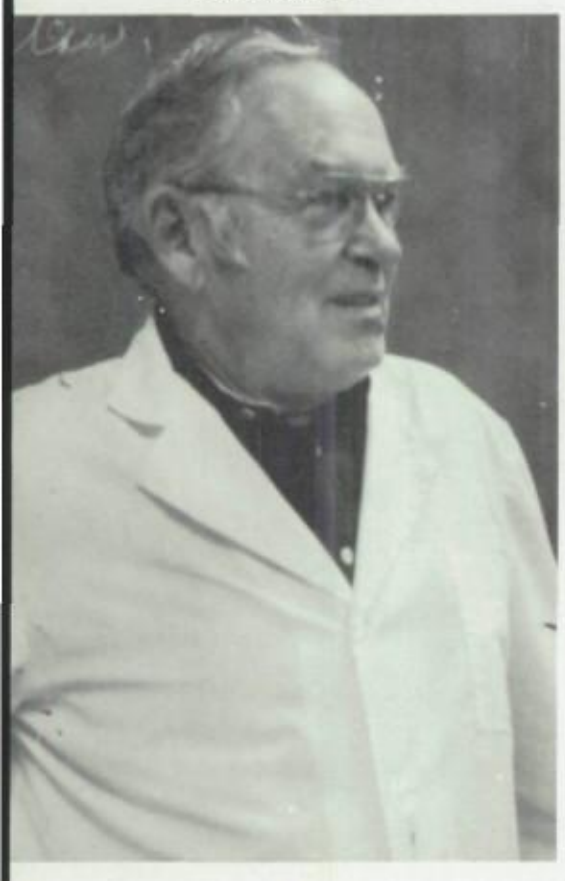
Six Special Teachers

Mr. Paul Ristvedt has dedicated 6 years of teaching to the students f MHS. He spent his ndergraduate study at Minot State ollege. To finish his graduate egree he attended school at UND t Grand Forks, Fargo, and Boulder olorado. Mr. Ristvedt has taught cience classes.

Mr. Ristvedt finds the most ewarding thing about teaching is orking with people, and is he had o go through college again he ould still choose the career of eaching.

The highlight for Mr. Ristvedt's areer has been visiting with former tudents to see what they have one with their lives. He hasn't een any change in the students ver the years. "Teenagers will be eenagers," he says. This will be Mr. Ristvedt's last year of teaching t MHS, and after retiring he plans n farming, doing more hunting and ishing, and traveling.

Paul Ristvedt



Keenan Smith

Dissecting pigs and sharks has been a part of Mr. Keenan Smith's life for the last 36 years. He has spent his whole teaching career at MHS and intends to keep on for a few more years.

He graduated from Superior State in Wisconsin with a B.S. degree, and later went back to receive a M.E.D. degree.

Students are the most rewarding thing in teaching he feels. But the change he has seen over the years is that there seems to be less parental guidance and care towards students and that is really sad.

In 1960 he started an advanced course program for students. He feels the more courses there are to take, the better you will fare in the growing society of today. Starting this program was a highlight and a rewarding experience for him.

If he could do it over, he would probably be a medical pathologist. He feels that would be a good, challenging job, but he still likes to teach.

Planning the facilities at Magic City was the highlight of Mr. Sam Verbitsky's teaching career.

He began his 25 years career at Alamo and taught at a county school, Nashua, Mont., and Los Vegas, Nev., before coming to Minot High's business department.

Mr. Verbitsky is a graduate of Minot State College and has done graduate work at Missoula, Mont., the University of Colorado at Boulder, San Francisco University and Bemidji State college.

If he were choosing a career today, he would probably select teaching again because there is constant change and challenge.

He finds work with the young people and watching them go out to be successful the most rewarding part of teaching. He does note that students in 1983 are more aware of the economic changes around them, participate in more activities and join labor forces earlier then they ever have before.

Following his retirement this devoted educator plans to spend time on his hobbies which will include woodworking, reading, fishing, and just loafing.

Kari,

I am really glad we got to be friends & think your great. You always seem to be smiling and happy. And you are always there when I need to tell someone my problems.

So I hope you and Rick stay together forever. And I hope you get whatever you want in life. Have a great summer.

Give me a call

Junior Class Shines With President Renae Newman

Junior class officers are vice president Mark McKechnie, president Renae Newman, treasurer Kevin White, secretary Rhonda Olander, and two members at large Mindee Mathis and Roxy Griffitt.

Miss Marcy Blikre and Mr. Keith Bjornson are the advisors.

Two additional members at large are Wade Linder and Daren Walker.

This year the Junior Class Officers bought a film, "The Aristocrats" and furnished the beverages to add a little more fun and excitement to the Christmas party for little children, which was sponsored by DECA.

During the Homecoming festivities, they finished the celebration with a homecoming dance to the music of Nuisance, and also gave us a prom that we all will remember in the years to come.

Senior Class Hosts Successful Snowball Dance

Heidi, Julie, and Stacy wait for Joe.

Joe Gergen served as class president.

Officers are president Joe Gergen, secretary Eric Svare, member at large Tracy Slavens, vice president Stacy Ringstad, treasurer Becky Brooks, member at large Karen Carlson, member at large Julie Woods, and member at large Heidi Ehr.

The Senior Class as its major project sponsored the Sadie Hawkins Dance and also put together the Senior Class banquet and dance which always tops off the Senior Class remembrances.

Traci Slavens watches as Heidi Ehr and Julie Woods go over the minutes.

HAPPINESS
by Karen Mathison
(1-7-82)

Many people have brought happiness into my life and I must say that you are the source of much of my happiness.
For when we are together, whether we are talking, dancing or just in the same room, I know that you care about me though at times I act foolish.
But still you stand by me and help me along the way with your smile and your words.
This is my greatest joy and my happiness.

strive to be that perfectly.

1976 — The memories of our past prepare us
for the dreams of our future.

1977 — Find a path or make one.

1978 — Today's happenings are tomorrow's memories.

1979 — Our dreams build tomorrow's future.

1980 — What we are to be we are now becoming.

1981 — Accept your limitations,
then go beyond them.

1982 — Character is the cornerstone of the future.

In 10 Years Thousands Pass; People Make Moments Magic

The magic and beauty of Minot High School has helped mold the character of the many students who have entered its doors through the last ten years.

The opportunities are many and varied and many students have taken advantage of these. A student cannot help but recall pleasant memories of the years that they have traveled through the halls.

Along with the beautiful building that was made available to us, we shall always remember the teachers who helped to make our high school years the memorable ones they are.

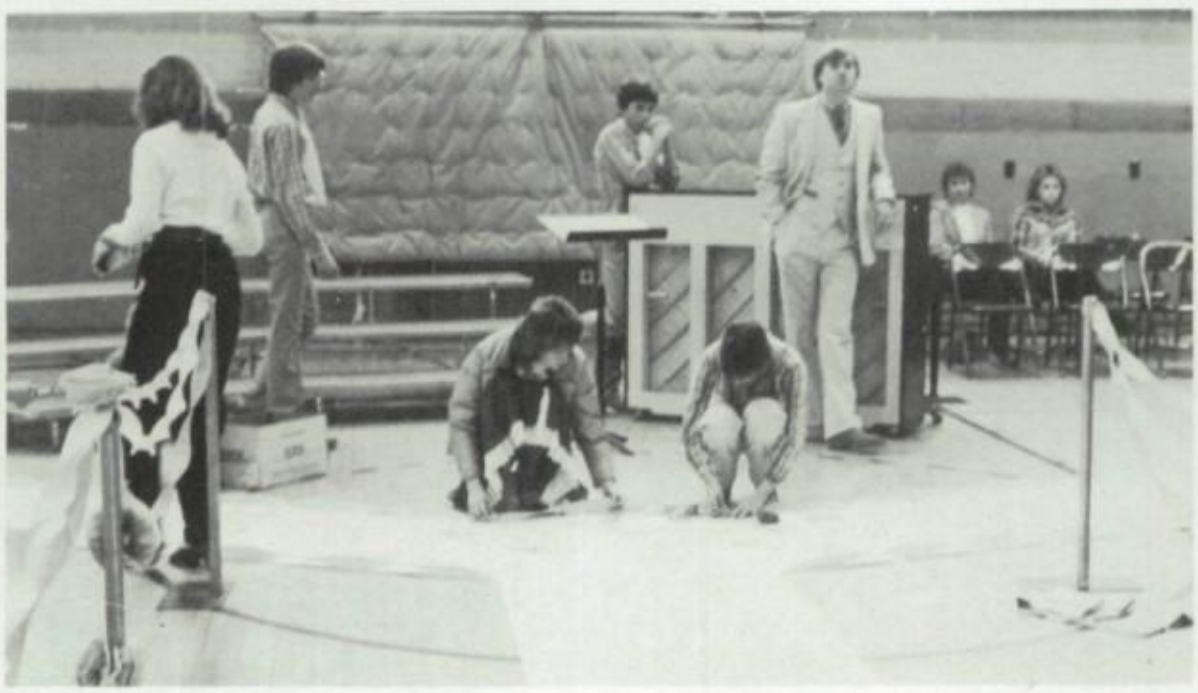
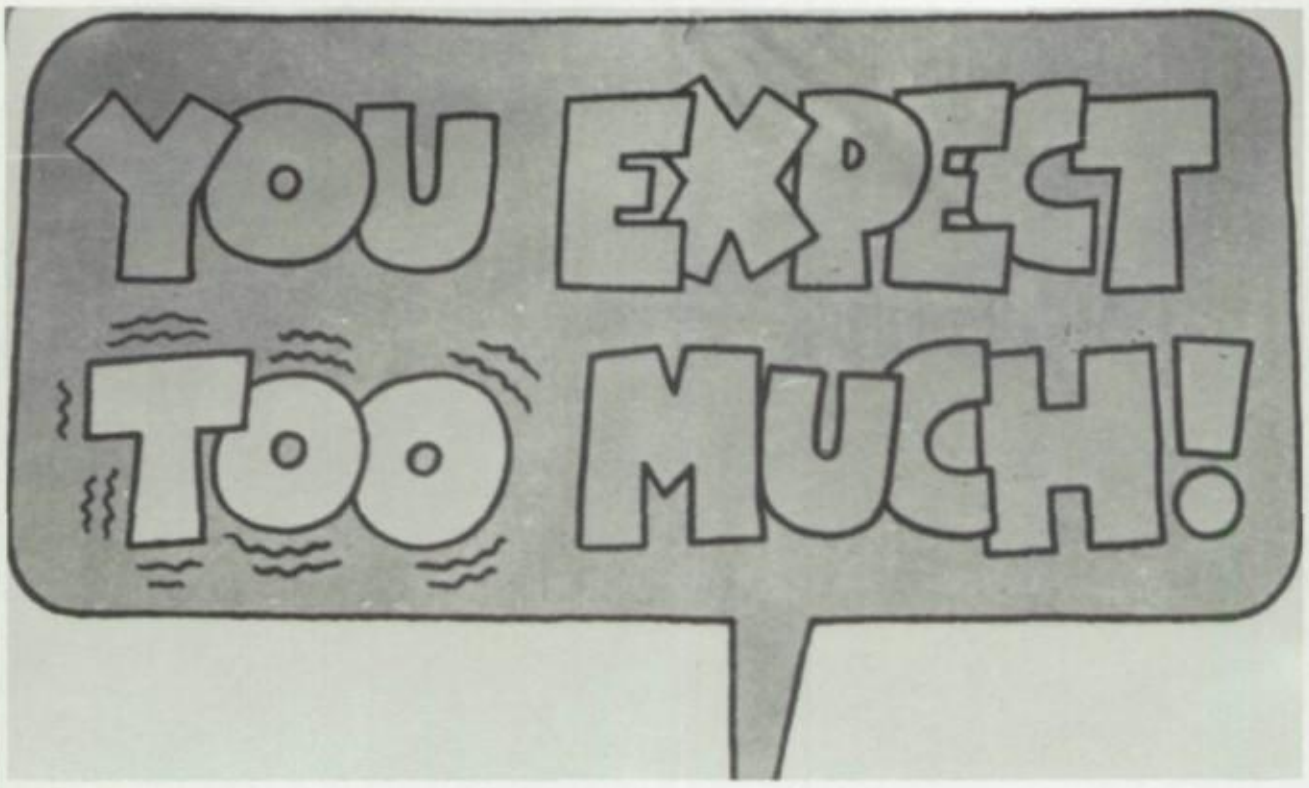
"Friends Forever" Is King and Queen of Hearts Song

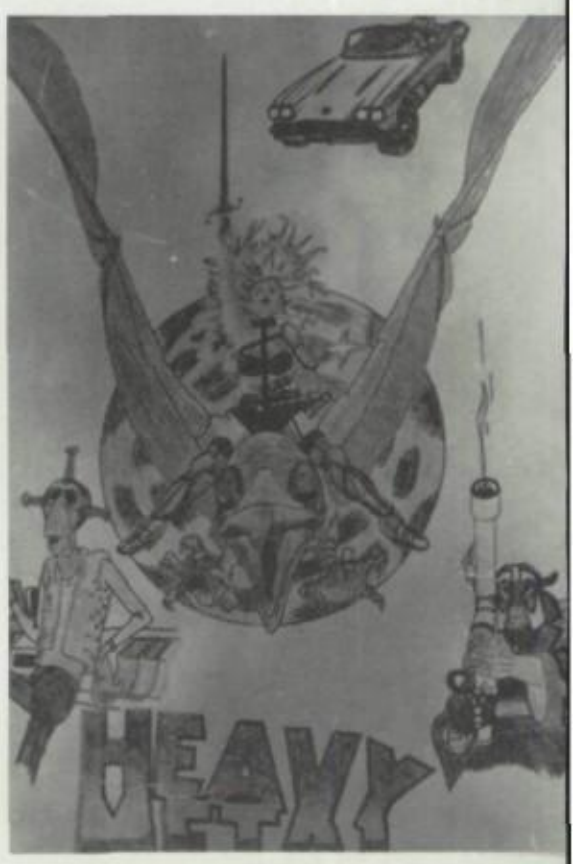


In mid-February of this year, Central's fourth King and Queen of Hearts — Paul Berg and Holly Hansen — were crowned. Their coronation was the high point of a Spirit Week that began with Red-and-White Day on Valentine's Day and ended with Dress-up Day, the coronation assembly, and a dance in our new cafeteria.

The magic of those days came in the special moments we shared with friends, whether laughing together over a fifties outfit or sharing tears with Holly. "Friends Forever" was our theme song.

Graduation Marks End of 12 Emotion Filled Years





As the year approaches the end for the seniors, the feeling can't be described as magical.

As we realize our school year is over many of us have mixed emotions.

Leaving our friends but finally getting out of school and being out on our own can make us happy and give us a challenge to look to in the future.

Some of us seniors will get jobs and many will continue with our education.

Graduation on May 25 is the last time that our Senior Class will be together so Good Luck, Class of 1983 and Good-Bye.

"always"

Hi, Kari it is already the end of 10th grade & two more years to enjoy it I guess! We've been friends (the best of) for a long time now & I've enjoyed it. I guess though I really screwed it up this year & If you don't know now I'm sorry my feelings never did change about you I considered you my best friend then & now cause we've really had some crazy times together that I'll never forget! For instance the powder in the hair, steeling that 10th AVE sign going to your cabin.... & having you for my best friend has really been special & theres alot more to come! Will have to make up for what were behind in (PARTying) I'm sure will do alot of partying together this summer! We'll have to go to the lake alot! And remember Kari I'll always be there! And thank for being there when I needed some one! We always do pull through!. And I'm glad! TAKE it EASY And the best of luck in the future! Good luck with Rick! TAKE it EASY on the guys! Well not much more to say but see ya sis!
